## DETAILED ACTION

### *Specification*

1. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet **within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited.** The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

### *Claim Objections*

2. Claims 18, 27, 29, 34 and 35 are objected to because of the following informalities:

- Claim 18, Line 9; "anti-twist stop and in" should read --anti-twist stop in--.
- Claim 27, Line 3; "each drive part" should read --the drive part--.
- Claim 29, Line 1; The claim depends on a canceled claim.
- Claim 34, Line 9; "anti-twist stop and in" should read --anti-twist stop in--.
- Claim 35, Line 8; "anti-twist stop and In" should read --anti-twist stop in--.

Appropriate correction is required.

***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 20-26 and 31-33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

5. Regarding Claim 20, it is unclear how the drive can have a drive part (singular) in claim 1 and then have a drive be formed by two or more drive parts (plural) in the depending claim.

6. Regarding Claim 31, it is unclear what is meant by “a number of” and “the number of”. What is the number that is being referred to?

***Allowable Subject Matter***

7. Claim 30 is allowed.

***Response to Arguments***

8. Applicant's arguments with respect to claims 18, 20-27, and 29-35 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
